SANITARYWARE

Our sanitaryware collection boasts a wealth of beautiful curves and soft square profiles, adding a touch of elegance to any contemporary bathroom design.

RIMLESS FLUSHING

Rimmed toilet: traditional flush rims attract germs, dirt and deposits.

Each Rimless Toilet is designed entirely without a flush rim, so there are no hidden, hard-to-reach places where bacteria can build up and odour can develop.

DOUBLE-SHIFT WATER OUTLET

The design of the 3/4.5L double-shift water outlet not only ensures a thorough clean, but it also saves water.

WHOLE-SEWER GLAZING

The inner surface of the sewer is completely glazed, ensuring that there is nowhere for dirt to hide, minimising the chance of blockages.

RIMLESS TOILET

Traditional flush rims attract germs, dirt and deposits. Each Rimless Toilet is designed entirely without a flush rim, so there are no hidden, hard-to-reach places where bacteria can build up and odour can develop.

EASY TO CLEAN GLAZING

The smooth surface of the porcelain glaze has been specifically designed to be easy to clean, with no hidden or hard-to-reach places where bacteria can build up.

SOFT CLOSE SEAT COVER

A built-in damper reduces the impact and noise made by the seat cover when it's closed.

EASY ASSEMBLY & DISASSEMBLY

The design of easy assembly & disassembly is excellent. A slight twist can ensure easy cleaning of the toilet.
