Easy to **replace** deodorant box structure design

Integrated smart toilet introduction

**Self-circulating
Descaling**

**Effectively prevent
water from scaling,**

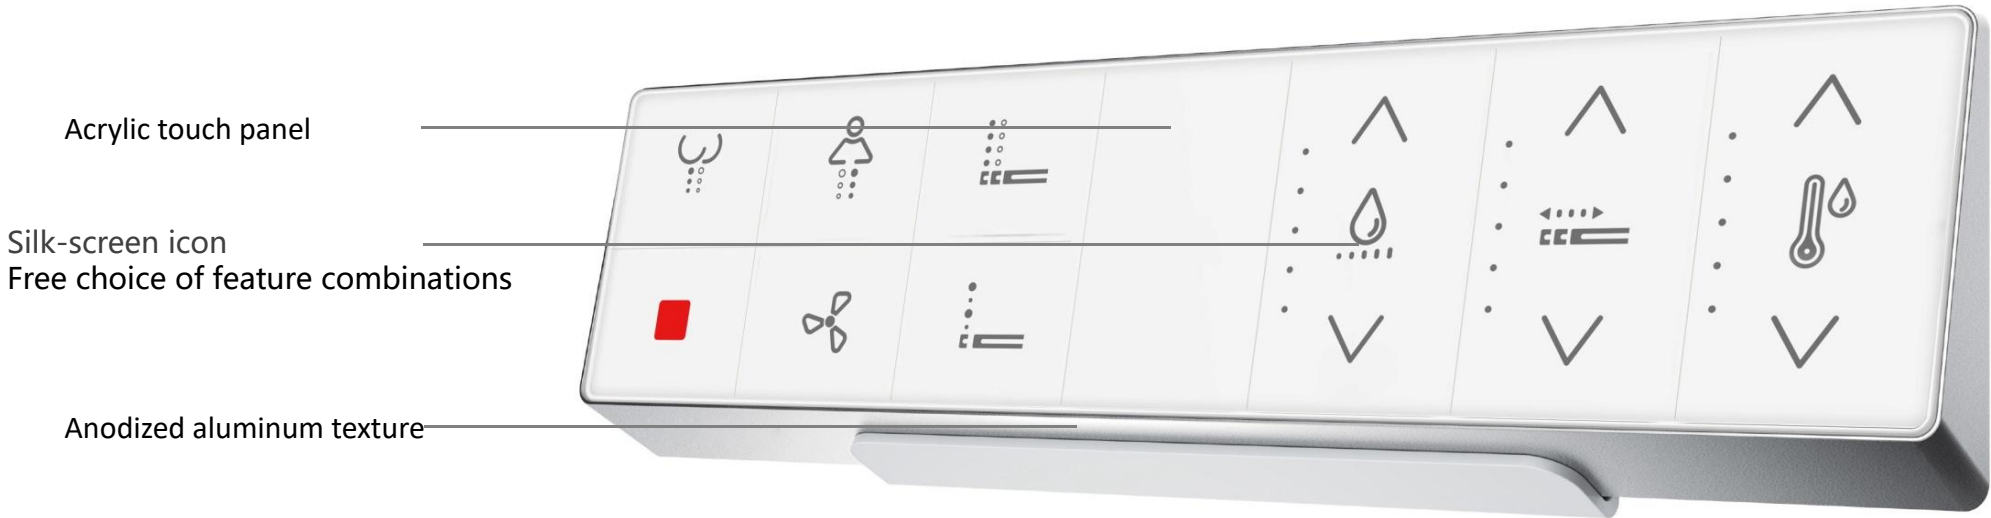

**ensure flushing water
volume and extend
product life**

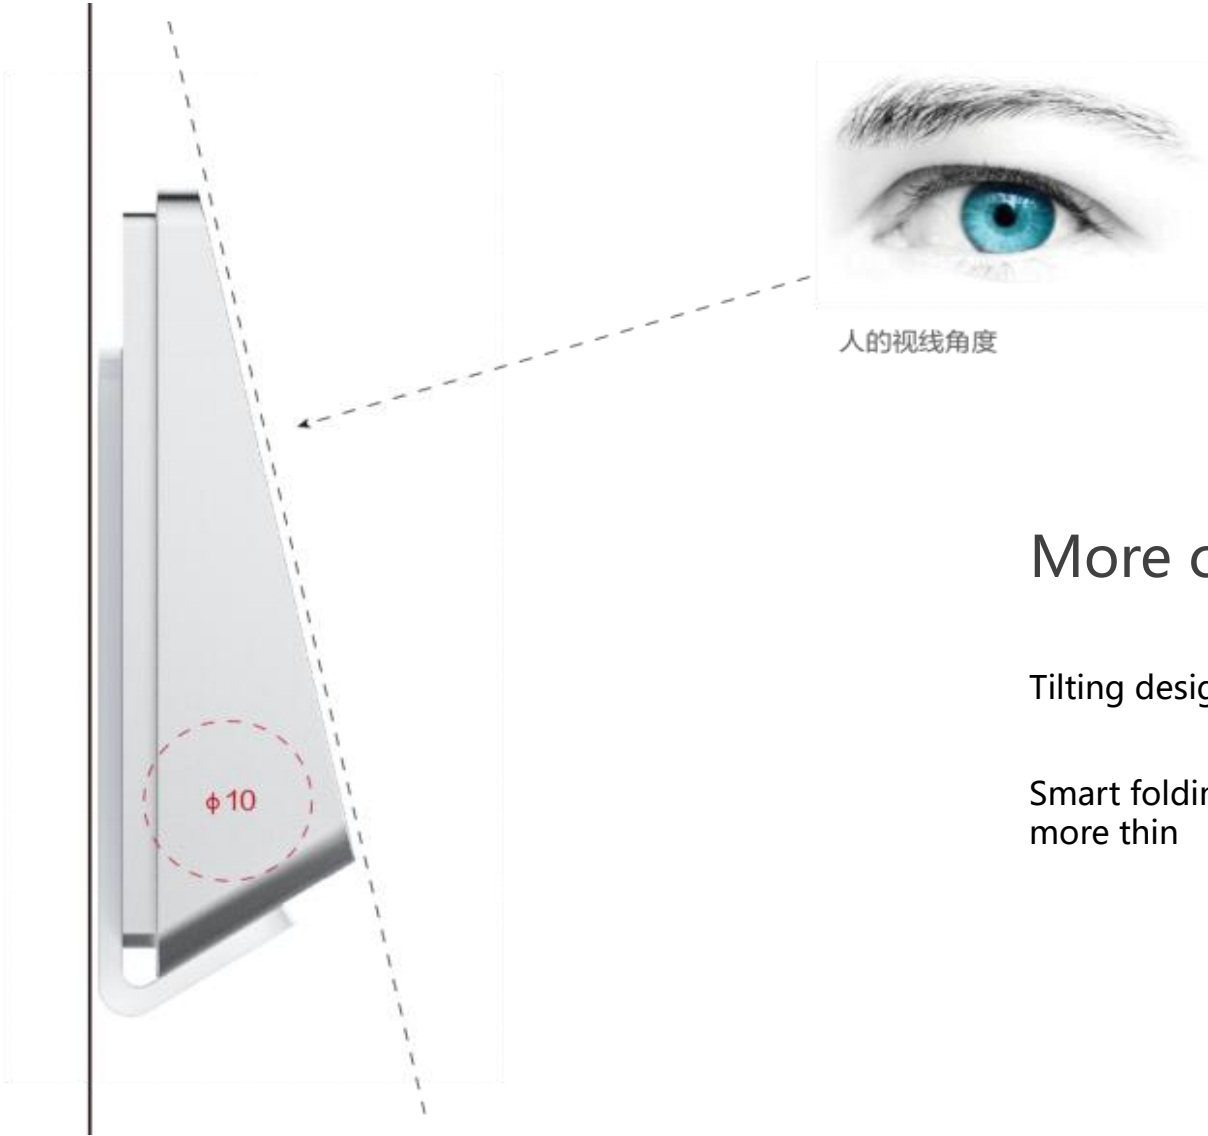

Remote Control

Remote Control Material

Ultra-thin& intelligent remote control

More comfortable design

Tilting design, ergonomic, comfortable using and observation

Smart folding design to meet the battery size and make the product more thin

Integrated smart toilet introduction

Optional remote control

- **Optional practical remote control**
- **Comfortable grip**
- **Easy one-handed operation**
- **Functional icons are clear and semantically clear**

- **Optional two-handed remote control**
- **Touch control panel, more intuitive**
- **More settings on the back for easy access**

Integrated smart toilet introduction

Ceramic seat part

Pipe structure: wash -down flushing

Circle surface scrubbing: no ring hole scrubbing

Implementation: GB-6952-2015 / EN-997

Using environment effect

Integrated smart toilet introduction

Certification and implementation standards and use of environmental requirements		
Water saving standard	Dual water saving 3/ 4.5L	●
Certification and implementation standards	CE /CB / GS certification	●
	SAA / Watermark certification	●
	RoHS certification	●
	GB-6952 / EN-997	●
	EN1717	●
	IPX4	●
Use environmental water pressure requirement	Water supply static pressure 0.075MPa-0.8MPa	●
	Ambient temperature 1 ° C -40 ° C, relative humidity is not more than 95%	●
